

Tyler Halfpenny

For Executive Member at Large

CUPE 386 Brothers and Sisters,

I have been a member of CUPE 386 and an employee with the City of Coquitlam since 2016. Given my experience working in Roads, Water, Sewer and Drainage Departments, I've had the opportunity to connect with our fellow members, listen to concerns, as well as encounter them first hand. As a Shop Steward, I understand that your voices need to be heard. If elected, I will be dedicated to strengthening our Local, ensuring proper representation is provided, and be an advocate for your rights as a worker.

Although I work in Engineering and Public Works, my commitments do not end there. I am aware of ongoing issues in other departments and I will continue to reach out and ensure that all members are supported. As I am at the beginning of my career, I believe it is important to get young workers more involved and bring more awareness to new workers. I will improve communication and confidence, not only in our Local, but our region. I feel that collectively we can increase our bargaining power and move towards a better quality of life and one that is in line with cost of living.

It is without question that we need to regain solidarity and address issues within our contract. I will make myself available to hear your advice, bring forward your expressions to the executive team, and take the first step in implementing a change.
